PURPOSE/JUSTIFICATION OF RECOMMENDED ACTION:

The appropriation adjustment will provide adequate funding to address the expenditures noted below.

Lifeguard Budget Unit

- **Boating & Waterways Grant**
The \$50,000 B&W grant funds will be used to purchase three Marine Thermal Imaging Cameras. These cameras will assist the Lifeguard Rescue Boat operations in maintaining state-of-the-art public safety to the boating and beach community within Los Angeles County. The cameras will enable lifeguards to spot potential hazards in marine firefighting operations and will increase emergency responder safety and the safety of the public.
- **Boating & Waterways Financial Aid**
As a result of the recent increase to the State's funding to offset costs of the Lifeguard's boating safety and enforcement program needs this fiscal year, \$620,000 of one-time funds are now available to address deferred lifeguard facility improvement projects, including privacy and access upgrades for female employees, purchase of personal protective equipment for our ocean lifeguards and two prefabricated structures for equipment/vehicle storage, in addition to the replacement of a burned lifeguard tower.

Special Operations Budget Unit

- **Semi-Trailer**
The purchase of the Semi-Trailer at a cost of \$50,000 will be offset by FEMA '06 grant revenue. The semi-trailer will be used for cache movement, which is critical in ensuring the District's Urban Search and Rescue team is deployed in a timely manner.
- **Thermal Imaging Cameras**
The purchase of two Thermal Imaging Cameras at a cost of \$30,000 will be offset by FEMA '06 grant revenue. The use of these cameras is mandated by FEMA and will assist the District's Urban Search and Rescue efforts.

Implementation of Strategic Plan Goals

Approval of the recommended actions is consistent with the County's Strategic Goal #4 for Fiscal Responsibility and Goal #8 for Public Safety.

FISCAL IMPACT/FINANCING:

With your Board's approval of the attached Appropriation Adjustments, sufficient funding will be available in the District's Lifeguard and Special Operations Budget Units to fund the purchase of three Marine Thermal Imaging Cameras for the Lifeguard Rescue Boats, one Semi-Trailer for the Urban Search and Rescue team and two Thermal Imaging Cameras for the District's Urban Search and Rescue efforts. There is no impact on net County cost.

FACTS AND PROVISIONS/LEGAL REQUIREMENTS:

The Chief Administrative Office and Auditor-Controller have reviewed the recommended actions.

IMPACT ON CURRENT SERVICES:

Approval of these recommendations will ensure the District's ability to provide effective and essential levels of public safety to the residents of Los Angeles County.
